

Aluminium Tooling & Plastic Injection Moulding

We are proud to introduce our new service, **RP** Rapid...

Fast Tactics, Fast Plastics

Introducing RP Rapid...

Supports Prototype, Pre-production and Production Volumes

Fast turnaround tooling and parts in as little as 7 business days

On 4th May 2022, RP Technologies launched **RP Rapid**.

This is a fast turnaround service for tooling and parts.

As is the case with RP Technologies, ownership of RP Rapid's tooling will belong to you.

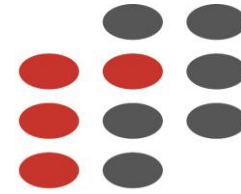

So if your back is to the wall and you find yourself needing tooling and plastic parts in double quick time, **RP Rapid** could be just the solution you're looking for.

RP Rapid

Fast Tactics, Fast Plastics

Rapid Rules

Supports Prototype, Pre-production and Production Volumes

We don't want to burden you with silly stipulations and endless small print.
But in order to complete projects within rapid timeframes, we would ask you
to observe these simple Rapid Rules:

Stock or customer
supplied materials

1 slider only and
hook out – 10
business days
turnaround

1mm rad limit

Sliders – 10 business
days turnaround

1000 parts
guarantee for each
tool

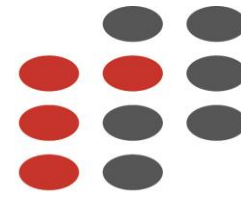

Maximum number of
samples: 100 T-Zero

Any orders received
after 3pm will roll
into the next
business day

Time begins when at
least final CAD
design and purchase
order are received

Timeframes do not
include shipping

Make A Rapid Enquiry

Supports Prototype, Pre-production and Production Volumes

What to do next if you have a rapid turnaround project

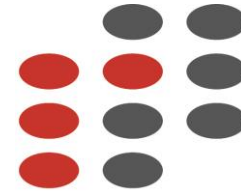

If you have a project that needs to be turned around quickly, please email the CAD design to info@rpstechnologies.co.uk.

We'll review the CAD and tell you, quite simply, what we can do, and in what timeframe we can do it. If this is acceptable to you, we will issue a quotation for you to review.

If you are not at this stage but would like to discuss your project in more detail, please give us a call for an informal chat and we'll be happy to help where we can.

Industry Sectors

Our Key Markets

AUTOMOTIVE

MEDICAL

AEROSPACE

ELECTRONICS

MARINE

RAIL

MOD

CONSUMER PRODUCT
DEVELOPMENT

The above sectors represent our key markets currently, but they are by no means exclusive of our interests. We are actively involved in many other industries, as the versatility and quality of our components allow us to supply a range of marketplaces.
